

**In 71 days, you could start working
in a new, rewarding career as a
Dental Assistant**

A career of helping people improve their dental health will be rewarding and enormously satisfying for you. No two days will ever be the same and your job will continuously renew itself. Dental assisting is a career that will always be in demand and in need of enthusiastic, trained and caring individuals. This could be you, couldn't it?!

Dear Students:

Our course is designed to give our students maximum "hands-on" training in a real dental office. And the dental office is closed to the public to not put the students under great stress while in a learning phase. **There are no real patients to be harmed by just learning type of mistakes and no demanding dentists to criticize lack of speed. This is a real school!** You are not expected to already know everything. You are just expected to work hard, study well and learn!

The teaching is stimulating, fast paced, and relies heavily on your participation. The largest size of each group will be one instructor per 10 students. An excellent textbook is used (yes, there are reading assignments and homework) so classroom time can be spent learning the "hands-on" stuff.

Our next dental assisting class will begin on: Saturday, January 6th, 2024

It would be wise to send your down payment in with your application before open house since we fill our class quickly. Some times before the open house. If you are thinking of entering the next class or are strongly thinking about it, come by our office and pick up a catalog, which includes all the information you need to be comfortable with your decision. Please call 658-8098 to schedule a tour of our office and training facility and pick up our catalog. If you have any questions please call, we look forward to seeing you in our next class! (and working in as few as 71 days).

Sincerely,

Lance E. Fallin, DDS
President

Louisiana Dental Assistant School, LLC

About our course:

The Job opportunities for trained dental assistants is quite good in today's marketplace. While no one can guarantee job placement, the dental profession is currently facing a shortage of trained assistants. If one examines the want ads there are many for Dental Assistants.

Following your training in this ten-week course, you will have the confidence and skills necessary to apply for these positions.

Part of your training will involve the *Job Interview* itself, how to prepare for it, how to dress, what to say, etc. So often, jobs are lost during the first five minutes of the interview. We feel it is important to train you in this area so that you will stand out from the rest of those competing for that position.

Additionally, many doctors call our office asking for a list of our recent student graduates. We also inform our current class of any doctors needing Dental Assistants so that they may apply directly for the position. Many of our students have obtained jobs as dental assistants even before finishing the course.

The starting pay scale for experienced dental assistants is considerably higher than non-experienced and most offices will not even consider anyone with no experience. We are often asked what can a graduate from our course expect to make in their first job. The answer depends on where the office is. Offices in a metropolitan area generally pay higher salaries than those in suburban areas. Graduates of our course can expect to start well above the pay scale of those with no experience, but less than experienced assistants, which is good news due to the fact that as your experience and skills develop with time on the job your level of pay should also rise.

One set of navy blue scrubs are required for this course. The cost for you should be about \$35. Upon registration, the location of where to obtain your scrubs will be provided.

Louisiana Dental Assistant School, LLC
